VOLTS JARRED LIFE OUT OF TUCKER

Youthful Murderer Electrocuted at Midnight.

SLENDER EVIDENCE CONVICTED

But Every Effort to Secure Clemency for Him Was in Vain—Roosevelt Wrote Governor Guild Urging Him to Put Tucker to Death.

Boston, Mass., June 13.—Charles L. Tucker was electrocuted at 12:12 a. m. Tuesday for the murder of Mabel Page at Weston, March 3, 1904. Tucker was officially pronounced dead by the prison doctors at 12:19.

Three applications of the current were made.

When Tucker arrived in front of the death chair he drew from his trousers' pocket a brief statement which he read. The statement was:

"I hope that God will forgive me for all the wrongs I have ever done in my past life. I forgive everybody who has ever wronged me. I am at peace with my Master. May God have mercy on my soul."

In the Death Chair.

Tucker then sat down in the chair and after the guards had adjusted the straps the warden raised his hand as a signal to the electrician.

After the first application of the electricity, Dr. Joseph McLaughlin, the prison surgeon, made an examination and announced that the pulse was still beating. After the current had been applied a second time the surgeon detected a movement of the heart, but when the current was applied a third time Tucker was pronounced dead. This announcement was made at 12:19 o'clock a. m.

The surgeon stated that Tucker was unconscious from the moment the first shock was sustained.

One effort was made to prolong the life of Charles L. Tucker, through executive clemency, but after hearing the appeal of his clergyman as well as his counsel, Governor Guild declined to interfere with the execution of the sentence.

Sketch of Tucker's Crime.

One of the incidents of the day was a telegram received at the state house by Governor Guild from President Roosevelt in relation to the Tucker case, declaring that there should be no interference with carrying out the sentence.

The electrocution of Charles L. Tucker marked the final chapter in the history of the murder of Mabel Page at her home in Weston, Mass., March 31, 1904, and also [illegible] of the most desperate legal battles ever waged in Massachusetts. The life of a convicted murderer, Mabel Page was murdered in her home in Weston on March [illegible] 1904. Her body was found [illegible] by her aged father. On a table was found a note [illegible] supposed to have been written by Miss Page, stating that she had gone to Boston because of illness of her mother. It later developed that her brother, Harold, was not [illegible] scrawling on the note and a postal card which was also found in the house figured in the trial, the prosecution contending that the card was written with specimens of Tucker's [illegible] writing.

The police learned that Charles L. Tucker, an Auburndale young man of dissipated habits, had been seen near the house on the day of the murder. They found Tucker and on taking him to a police station questioned him and released him. About three weeks afterward the officers searched Tucker's home.

Knife Blade Doomed Him.

There, in an old coat they found a pen knife blade stained with blood, the scars indicating that an effort had been made to destroy all traces of a file. A chemical examination was made and it was learned that Mabel Page had had a pin similar to that found in Tucker's coat. This, together with the fact that stains on the knife blade were pronounced of human blood as well as Tucker's act of breaking the blade in three pieces caused his arrest. Indictment for murder in the first degree followed. The evidence at the trial was largely of a circumstantial nature.

Since Tucker's trial and conviction Edwin Page, father of the murdered girl, has died, as has Professor E. S. Wood, of Harvard university, who was the expert analyst for the prosecution.

St. Louis, June 13.—A special to the Post-Dispatch from Houston, Tex., says:

About 1,000 feet of the bridge over a mile long, which connects Galveston Island with the mainland, burned on Tuesday morning, completely isolating Galveston from all connection with the outside world, except by boat.

Wife Dead; Husband Arrested.

New York, June 13.—Campbell O. Adair, an Englishman, a bricklayer, was arrested early Tuesday after his wife, Agnes, had been killed by a fall from the front window of their home in the fifth floor of a tenement house at 229 East One Hundred and Twenty-seventh street. A man living in the house said he was coming home and just about to enter the front door on the ground floor when he heard screams overhead, and looking up, saw the body of a woman come whirling through the air and strike heavily on the pickets of an iron railing in front of the house. Smith recognized the woman as Mrs. Adair and hurried to a police station. The woman was dead when picked up. Two detectives went up to the Adair apartments and found, they said, that the bricklayer had barricaded himself in the room. When they asked him to open the door his reply was curses and threats. The detectives then burst down the door and arrested him. Adair's daughter said her father and mother had quarreled during the night.

He has been living at Belmarle, N. J., for some time.

YELLOW FEVER CASES FOUND

They Came From Colon on Steamer Whitehall.

New Orleans, June 13.—The fact that three cases of yellow fever have been under quarantine for the past ten days at Ship Island, a government quarantine station in the gulf of Mexico, about midway between the mouth of the Mississippi river and Mobile, Ala., was made public Monday by Dr. C. H. Irion, president of the Louisiana state board of health.

The announcement of the yellow fever cases was the result of a discussion between Dr. Irion and Health officer Hunter, of Mississippi, over the fact that they had not been notified immediately of the fever's presence. The cases came from Colon, and were taken off the steamer Whitehall, which was bound for Gulfport, Miss. Ship Island is a short distance south of the Mississippi coast, and in charge of United States marine hospital officers, who immediately notified Surgeon General Wyman, of the United States public service and marine hospital service. Dr. Irion commented upon the circumstances under which this report was made.

He announced also that quarantine orders have been issued against Celba, Honduras, at which port it is reported that refugees are gathering to escape yellow fever, which is said to be breaking out at several points in Honduras. He also said that he has received reports that there is yellow fever in Havana.

HAULING WATER BY TRAIN LOAD

Heat in Louisiana Causes Distressing Conditions.

New Orleans, June 13.—Arrangements to carry drinking water by train load from New Orleans to Mineburg, a fishing village about 10 miles from here, on Lake Pontchartrain, have been made in response to an appeal from the 200 inhabitants of that place.

The water famine is in part due to the prolonged hot wave from which New Orleans and vicinity has been suffering for a week, although it has caused no deaths yet.

For three months there has been little rainfall here and the heat hastened the rapid diminution of the water supply in cisterns, from which the drinking water supply both of Mineburg and of thousands of families of the poor in New Orleans is taken.

Temperatures have daily risen above 90, with 92 the highest recorded by the United States weather bureau Monday. This week for the first time in the city's history an order goes into effect to parole prisoners at night from the city jails.

Forced to Name a Son for Death.

St. Petersburg, June 13.—A pathetic story comes to the Associated Press from Riga, of the military authorities compelling a father, a veteran of the Turkish war, to choose between his two sons who should be executed for participation in disarming a policeman, the authorities being unable to identify which brother was implicated. After the father had reluctantly selected the victim and his execution occurred it was discovered that the other son was the real culprit. The latter was rearrested and is being tried by courtmartial.

First Car of Peaches.

Macon, Ga., June 13.—J. and P. D. Willingham, of this city, are the first central Georgia peach growers to forward a whole car of this season's fruit to market. A car of the Greensboro variety was marketed in New York Monday morning by their agent, Richard F. Willingham, of this city. All the shippers of this community are now devoting their entire time to arrangements for peach shipments. The crop is a very good one, and the quality so far is said to be fine.

It will be late in the year before the fleet can be ready to start on its voyage.

LOOKS LIKE RIVERS IS ELECTED

He Leads Fielding Forty Votes Thus Far.

FOUR PRECINCTS TO HEAR FROM

These Precincts, in Putnam County, Hold Key to Situation—Dampier An Easy Winner For County Commissioner—Vote As Cast in Counties.

Great interest was manifested in this city yesterday over the result of the primary election for the nomination of State Attorney in the Eighth Circuit. It was evident late Tuesday night that the result would be close, and the law office of W. E. Baker, campaign manager for Thos. W. Fielding, and The Sun office were besieged by those anxious to hear the returns. Mr. Baker exercised every effort to get all information possible, and The Sun is indebted to him for special favors. It will be seen by addition of the returns thus far received, which are unofficially complete with the exception of four unknown precincts in Putnam county, that the vote stands:

Calhoun	1115
Fielding	1284
Rivers	1274

It is conceded by both sides that the vote will be close between Fielding and Rivers, with the chances in favor of Rivers. Col. Calhoun is out of the race. Following is the vote by counties, with the exception of the four precincts in Putnam:

Alachua.

Calhoun	236
Fielding	297
Rivers	653

Eighteen out of 22 precincts in Alachua county reporting on county commissioner, give Dampier, present incumbent, 598 votes to 434 for Cason, and the remaining four precincts will increase Mr. Dampier's majority.

The Election in Duval.

IN THE MAYOR'S COURT.

Ed Murray Hit Rufus Bass With a Shovel and Was Fined.

The sessions of the mayor's court are becoming quite regular now, as they occur almost daily. There has been a time when a mayor's court was as rare as a flea on a do's back in the winter time, but that time has passed, for seldom a day passes but one or more offenders of the cause of justice are before the municipal tribunal.

Ed Murray and Rufus Bass got into an altercation over some trivial matter. Murray had the advantage in this difficulty, it appears, notwithstanding the fact that it was proved in court that Bass started the row by calling Murray a very rude name, which would not do to go into print.

"I tell yer how dis ting happen, Mr. Mare," began Murray on the witness stand.

"Don't call me a 'mare,'" said Mayor Thomas. "I am 'mayor,' and not 'mare,' as you express it; but go on with your story."

"Well," continued the defendant, "I tell yer how dis ting happen: Dat nigger Rufus Bass dun pesticated 'roun' wid my bizness whut didn't wurry him till I git mad, den I talk to him; den he call me er bad name, an' I had er shovel in mer han' an' hit 'im right in de neck; den he git mad an' hab me 'rested."

"What have you got to say about this thing, Bass?" queried the mayor of the plaintiff, who was sitting at one side of the hall.

"Dat niggah sho tol' you de truf, Mr. Mare."

"Look out for this 'mare' proposition," interrupted the mayor. "I've stood that thing long enough for you people to be calling me 'mare.' I'm mayor, and not 'mare.'

"Well, he tol' you de truf. He sho' hit me in de back uv my neck wid de sharp en ov dat shovel whut he hel' in his han' an' he gimme er pain whut I can't git ober."

"Well," replied Mayor Thomas in his charge, "I'll give it to Murray where he gave it to Bass—I'll give it to him in the neck, and will assess him to pay a fine of $2.50 and costs. And by way of parenthesis, I would not be surprised from what I have learned that Bass provoked Murray to some extent, and it becomes my duty, he so provoking Murray, to attach a fine of about $1 and costs on him."

The fines were paid.

THE STATE NORMAL.

Attendance Was Seventy-Five Yesterday, and Promise of Increase.

The third day of the summer normal, under direction of Professor W. F. Yocum, opened favorably, with seventy-five pupils in attendance. The work is now down to perfection, notwithstanding the fact that this was only the third day.

Dr. Yocum, as well as the other members of the faculty, expressed themselves as being highly pleased with the result so far, and predict a beneficial term.

The class of students which are attending this school as a rule are above the average of any normal ever conducted in the State. This is taking them as a whole, and the end of the term is likely to show some good results.

YARD STRIKERS CREATE TROUBLE

Are Raising All Kinds of Trouble at High Springs, So Reported.

SPECIAL TRAIN WAS SENT

It Comprised Sheriff Fennell and His Deputies, Who Were On Hand to Avert Any Disobeyance of the Law. A Serious Proposition Reported.

Information reached this city at a late hour last night to the effect that the yard foremen and switchmen, with other employes of the Atlantic Coast Line, at High Springs, were on a strike, and that life was endangered there. This report created considerable excitement here, as the Atlantic Coast Line, it is understood, wired Sheriff Fennell and his deputies to come at once, and a special train was made up.

The officers left last night at 11:15 for High Springs. It is feared that there will be a clash between the men and the officers, but the latter feel confident that they can master the situation.

There could be no particulars obtained other than the fact that the sheriff and his deputies left on a special train, provided for the purpose.

SORES AND ULCERS

TROUBLESOME-OFFENSIVE-DANGEROUS

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, plasters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These accumulations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the polluting or weakening of the blood from the remains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a lasting cure. As soon as the system gets under the influence of S. S. S. the inflammation gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge.

DROWNING NEAR HAGUE.

Elisha Henry, Colored Man, Drowned While Bathing.

Information reached this city from Hague Tuesday of the drowning of Elisha Henry, an industrious colored man, which occurred in Rocky Creek, near Pine Cottage school, Hague district, on Friday afternoon of the past week.

Henry was in bathing apparently, as when his body was found after a search of an hour or two, his form was naked. He evidently went down to the creek after the day's work to take a bath, and for some physical reason was unable to control his movements after he had reached deep water.

Deceased was about twenty years of age, and was employed on the Chase naval stores farm at Hague. He was regarded as a good man, and a man very much valued for faithfulness by his employers and respected by the people of his race.

Henry was buried at Rocky Branch cemetery on Sunday, and his funeral was largely attended.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only active destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Protect Your Vitality

J. W. McCollum & Co.'s Sensible Advices to Take Care of the Digestion.

The vital part of the human machine is the stomach. When it is strong and acts naturally, so that digestion is perfect and the food that furnishes our steam-power is stimulated, and the waste properly removed, then we can do our best work and get the most enjoyment out of life.

On the other hand, if the stomach gives out, all the vital organs will soon become weakened and diseased. There will be headaches, backaches, pains in the sides and limbs, specks before the eyes, loss of appetite, sleeplessness, weakness and debility.

J. W. McCollum & Co. very sensibly advise people to take care of the digestion by strengthening the stomach with Mi-o-na tablets, a remedy which they absolutely guarantee is a positive cure for all stomach troubles except cancer of the stomach, and sell it with the understanding that it does nothing unless it cures.

Ask J. W. McCollum & Co. to show you the guarantee they give with every 50-cent box of Mi-o-na.

After reading this issue, send it to your friend in the distance; or better yet, call at the office and send it to your friend or relative for six months or a year, for you can expect just such a paper as this for fifty-two weeks during the next year. Throw in your mite toward placing our city and county where they belong upon the map. This paper will do its part; you do yours.

People frequently inquire of the editor where we received our information concerning such and such a person, also who wrote this article or that. To impart information along this line is against the rules of a newspaper office and our friends and patrons will please bear this in mind and not annoy us with inquiries. We always stand ready to correct a wrong or misstatement.

Our citizens deserve credit for the pride they take in our schools. We venture the assertion that not a student ever went forth from this city, but went away with the best wishes of our people; they gave him encouragement during school life and when he departed took him by the hand and said, "God speed thee." Not one who has finished the course in our schools, wherever he may now be, but wishes our town and her people well, for it was among our Christian people, surrounded by an influence that was elevating and noble, animated by the splendid example of our citizens, that he received the foundation which makes him today the upright citizen in any community in which he may live.

The Secretary of the Treasury is noted for the looseness of his statements, and when he declared that "the Democratic party in the coming election will not demand free trade, it will simply echo the Cummins cry for revision," he, as usual, put his foot in it. The Democrats welcome all recruits to its tariff revision standard, especially such notable ones as Gov Cummins, Gov. LaFollette, Gov. Hoch and Congressman McCall and others, who are for free hides, free coal and reciprocity with Canada and such as are willing to help revise the tariff, so that the trusts will be compelled to sell as cheap to our own people as to foreigners. But "free trade" is a Republican myth which politicians of the Shaw caliber use to deceive their followers as to the real virtue of Democratic tariff reform.

There should be no "factions" in Gainesville. Every improvement made enhances the value of all property in and surrounding the city. We should live as one big family, and we believe few towns can show up a more progressive and intellectual family. We have as few "black sheep" in our place as any flock in the State. When there is discord in the family there is little progress. When there is a united pull there is a little we cannot accomplish. Envy, jealousy and hatred pull us all down. Envy is a canker that gnaws at the heart and makes one sour, disgruntled and unhappy. Jealousy makes one unfair in passing judgment. Hatred does not pay even from a sordid point of view. Let us all be friends and pull together and show our neighbors what a large and harmonious family can accomplish in building up a town.

GOOD ROADS.

At the session of the Legislature in 1903 a bill was passed which, if its provisions had been complied with by the trustees of the Internal Improvement Fund, would have resulted in the construction of not less than three hundred miles of hard roads in the various counties of this State. Instead of complying with this statute, however, the trustees are diverting the fund to preparing to drain the Everglades.

This statute was a Senate bill, introduced May 29, 1903 by Senator Peacock of the 17th district, but no references to it will be found in the index to the Senate Journal. It passed the Senate June 1, the vote in detail being as follows: Ayes—The President (Hon. Frank Adams,) Messrs. Blitch, Butler, Carson, Crews, Dimick, Faulkner, Gillen, Harris, Kirk, McCaskill, McCreary, Palmer, Peacock, Stockton and Williams—16; Nays—Messrs. Blount, Brown, Crill, Neel, Raney, Rouse, Sams, Wilson (7th) and Wilson (4th)—9. The bill passed the House June 4 without a dissenting vote. It appears on the statute book to have been approved by the Governor (Jennings) June 8, after the final adjournment, and is as follows:

"Chapter 5245—No. 140.

"An Act Providing for the Building of County Hard Roads and Providing Appropriations Therefor.

"Be it Enacted by the Legislature of the State of Florida:

"Section 1. All moneys now in the Internal Improvement Fund, after the payment of all legal abligations against said moneys, shall be placed by the trustees of the Internal Improvement Fund with the State Treasurer, who should thereupon place the same to the credit of the several counties of the State according to the assessed valuation of the property in the several counties at the time of the transfer, for the purpose of constructing hard roads in such county.

"Sec 2. All lands granted to the State of Florida by the United States under the Act of Congress of 1850, known as the 'Swamp and Overflowed Act,' for internal improvements, shall be sold by the trustees of the Internal Improvement Fund at such times and under such conditions as said trustees may determine; the proceeds therefrom shall be by them deposited with the State treasurer and by him placed to the credit of said county road fund, as provided in the foregoing section: Provided, That nothing herein shall be so construed as to prevent the payment in lands by the said trustees of the Internal Improvement Fund of all legal obligations now existing against said fund.

"Sec. 3. All moneys appropriated to the several counties as provided in the preceding sections shall be paid to the treasurer of such county upon the requisition of the county commissioners of said county, conditioned upon its being used exclusively for building and constructing a system of hard, macadamized or other hard surfaced roads; said requisition shall be accompanied by certificate under seal of the clerk of the circuit court that the county commissioners make such application solely for the purpose of building hard, macadamized or other hard-surfaced roads.

"Sec. 4. This act shall take effect immediately upon its passage and approval by the Governor.

"Approved June 8, 1903."

If you are superstitious about the number 13 you had better give us your quarter dollars, for on each one are 13 stars, 13 letters in the scroll of the eagle's beak, 13 leaves on the olive branch, 13 arrow heads and 13 letters in the words "quarter dollar." Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Senator Taliaferro has been appointed a member of the finance committee of the United States Senate to fill the vacancy caused by the death of Senator Gorman of Maryland. This is the most important committee of the Senate and Senator Taliaferro's membership thereon will increase his influence and enable him to still further advance the interests of his State. Florida is indeed fortunate in being so ably represented in the National Congress by such men as Senators Mallory and Taliaferro and Congressmen Sparkman, Clark and Lamar. No State in the Union makes a better showing in this particular.

While doing some shopping in one of our grocery stores last evening we chanced to hear a little boy ask his father who that man was buying the beans. "That is our editor," said the father. "What do editors live on," said the inquisitive little urchin. "Why do you ask that question?" said the indulgent father. "Because I heard you say you had taken our home paper for three years and had never paid a cent for it." To save the father embarrassment we left the store, but it is safe to predict that the child got spanked when the father got him home.—Exchange.

Some of our boys seem to have the gymnasium craze. That is right and proper, but after all the cheapest and best gymnasium in the world—one that will exercise every bone and muscle in the body—is a flat piece of steel, notched in one side, fitted tightly into a wooden frame, and, after being greased on both sides with a bacon rind, rubbed into a stick of wood lengthwise on a sawbuck.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, becomes despondency, impairs vigor and [illegible] when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bedwetting, depending upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It stands [illegible]

SNAPS HIS GUN AT BALL GAME.

Carolina Constable Attempted To Kill Dr. Watson.

Columbia, S. C., June 13.—During the sixth inning of Monday afternoon's game between Colored [illegible] and Macon, Constable John Carr attempted to move a small boy from the step of Dr. Watson's automobile.

Dr. Watson said he did not object to the boy sitting on the step and asked Carr not to move him. Carr became angry and drew a revolver, snapping the weapon five times which fortunately did not discharge. By some it is said the pistol unbreached as he drew it from his pocket allowing the cartridges to fall out.

Policeman Hegepath grappled with Carr, and after a severe struggle threw him to the ground, gaining possession of the revolver. It is said Carr was drinking. The incident occurred near the bleachers and had the weapon discharged no doubt the lives of innocent people would have been sacrificed.

Carr was taken to police headquarters but not locked up until after he had threatened to do violence to the reporter who had gone to learn the facts in the case.

ELECTRIC CHAIR NEAR PATRICK

Recorder Goff Denies Motion for a New Trial.

New York, June 13.—Recorder Goff has denied a motion for a new trial in the case of Albert T. Patrick, the condemned murderer of William Rice.

Patrick's attorneys, it is said, were prepared for an adverse decision, and have the papers ready for an application to the United States supreme court for a writ of error and for a writ of habeas corpus. These applications would again delay the carrying out of the death sentence and would make the fifth postponement for Patrick, who has now been in the death house in Sing Sing for more than four years.

The last resort in the effort to save Patrick will be an application to Governor Higgins for a commutation of the death sentence.

Nine Arrests for Gambling.

Macon, Ga., June 13.—Deputies Tom Jones and Charles Plunkett landed among some of Macon's young white men and before they stopped, not less than nine cases of gambling were made. Among those held up in the woods by the officers were some of the best known young men in Macon, and the arrests caused considerable comment. The officers walked into a crowd at Crump's park and there took charge of as many of the parties as could well be handled Soon after this they went into another party in East Macon and again held up all they could detain. Bonds were made and the accusations are awaiting a hearing.

The exact details of the shooting will be preserved for police court and could not be learned at this time. No one else was hit, though the shots were fired in a packed street, and at the fleeing negro.

Unknown Friends

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by all druggists.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse water discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effects of the cold and restores the system to a healthy condition within a day or two. For sale by all druggists.

Baseball Managers Encouraged.

New York, June 13.—Managers of baseball for financial profit played in Brooklyn on Sundays felt encouraged by the discharge of two men who were arrested by the police on Sunday for displaying contribution boxes on the ball grounds, during a game there. Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Co.

TWO MEN DROWN WHILE ROWING

Walker and Culpepper Die in Chattahoochee River.

West Point, Ga., June 13.—While out rowing in a bateau on the Chatahoochee river, just below the cotton mills of the West Point Manufacturing company at Langdale, two young men, Ollee Walker and Tom Culpepper, were drowned. A party of four had gone over to an island in the river, and on returning, while in midstream, one of them, Sol Tingle, in giving up the guidance of the boat to one of the others, missed his footing and capsized the boat. Sol and Frank Tingle escaped by clinging to the boat.

The others were fine swimmers, and started for the bank, but were seemingly seized with cramps and were drowned within a few feet of the bank on the Alabama side of the river.

In a very short time the shore was thronged with people, and about a hundred volunteered their services in searching for the bodies, which were recovered in about two hours. Both of the young men were mill operatives, Culpepper of the Lanett cotton mills, and Walker of the West Point Manufacturing company.

An Even Break.

"She's a girl after his own heart, he says."

"Yes, and he's a man after her money."

"But you know it's whispered on the quiet that she hasn't any money."

"Well, it's a notorious fact that he hasn't any heart."—Houston Post.

His Farewells.

"That young chap that calls on our Myrtilla reminds me of Patti," said the old man in the dining room.

"Why so?" asked his wife.

"He has so many farewell performances in the vestibule."—Baltimore Herald.

His Busy Day.

Customer (to printer)—You promised to have my work done yesterday, and you haven't touched it yet.

Printer—My dear sir, we've been so busy in this office that you ought to be very thankful that we took the time to make you a promise.

Annoying.

Layzee—My wife isn't exactly an anarchist, but she annoyed me this morning with one of her incendiary speeches.

Jenks—You don't say so?

Layzee—Yes, she said, "Henry, get up this minute and make the fire."—Philadelphia Ledger.

Anxious.

Alice—How did you feel while Fred was proposing to you?

Mildred—Two or three times I felt like supplying the words I knew he was groping for, but of course that wouldn't have been the thing to do at all.

His Expectation.

"I suppose," said his friend, "that when the investigation takes place you will be represented by counsel."

"Yes," said the statesman, "and I suppose I'll be misrepresented by the opposing counsel."

Her Version of It.

"But didn't you promise when we were married that I should smoke in the house whenever I pleased?"

"Yes but you never please by smoking in the house. You displease me."

Invitations.

Archie—See how I am run after. All these are invitations.

Friend—Good gracious! All invitations! Invitations to what?

Archie—To call and settle accounts.

His Debts.

"Well, my friend, I never pay my old debts. I forget them."

"And your new ones?"

"Oh, I let them get old."

It is only a long time after having learned it that we know anything well.—Joubert.

His Worldly Goods.

De Fly—Were you ever held up?

Bacon—Well, I was relieved of all I had.

De Fly—Where was it? Blank—At the altar.—Detroit Free Press.

Dr. Fourthly—How is your son getting along?

Dr. Goodman—Peaceably enough to say, as yet.—Chicago Tribune.
